RE: California Proposition 65, 1987

Dear AM/NS Calvert Customer:

As a seller or distributor of product in the State of California, you may be aware of California's Proposition 65 (Prop 65) requirements. California passed Prop 65 which went into effect on January 1, 1987. Prop 65 requires manufacturers and distributors of products sold in the State of California to provide warning that the products in question may contain detectable amounts of chemicals known to the state to cause cancer, birth defects, or other reproductive harm. To be clear, Proposition 65 does not ban or restrict the sale of chemicals that are listed. The warnings are intended to help Californians make informed decisions about potential exposures to the chemicals contained in the products they use. The law is administered by the Office of Environmental Health Hazard Assessment (OEHHA). In 2016, the OEHHA adopted new regulations that require new warnings for consumer products effective August 30, 2018. Additional information about these new requirements can be found at <https://www.p65warnings.ca.gov/>.

AM/NS Calvert's records indicate that you have purchased one or more of the following AM/NS Calvert products. As a manufacturer of these products, AM/NS Calvert is obligated to evaluate OSHA related chemical workplace and handling exposures related to the manufacture of these products and, when certain chemical thresholds exist, produce Safety Data Sheets (SDSs) for those products. This is not the same inquiry that is required for Prop 65 purposes. Nevertheless, we wanted to alert you that the products listed below contain chemicals currently on the Chemicals Known to the State to Cause Cancer or Reproductive Toxicity, May 25, 2018. SDS references are included for these products although only chemicals triggering disclosure under OSHA Hazard Communication requirements are included on the SDSs and there may be other chemicals contained in these products in trace amounts. These products contain or may contain detectable chemicals which the State of California has found to cause cancer, birth defects or other reproductive harm, which would require a warning under Proposition 65.

Additional manufacturing incorporating these AM/NS Calvert products, including use of the product to manufacture consumer products, is not contemplated in the AM/NS Calvert SDSs. Accordingly, additional analysis by customers using these products to manufacture consumer products may be required for determining Prop 65 compliance.

Product Name	SDS Number
Hot Rolled or Cold Rolled Steel	AMNS-0005
Metal Coated Steel Sheet	AMNS-0006

Copies of the AM/NS SDSs referenced above can be downloaded <https://usa.arcelormittal.com/doing-business/product-compliance/safety-data-sheets>.

This information is provided to assist our customers with compliance obligations under Prop 65. Please note that the information provided in the updated SDSs does not reflect any new scientific evidence concerning the level of risk likely to be encountered with our products.

Please contact us if we can be of further assistance in this matter.

Regards,

Tony Faith
Manager, Health & Safety Compliance
